UI/UX

PROJECTS

A Visionary Solution & Inclusive Learning

This project ensures equitable access to education for all individuals, regardless of their abilities or language preferences.

- Created an accessible and inclusive educational ecosystem by leveraging advanced technologies.
- Implemented Optical Character Recognition (OCR) for visually impaired access to printed content.
- Utilized Neural Machine Translation (NMT) for material translation into multiple languages.
- Employed text summarization to simplify complex content for learners with cognitive challenges.
- Fostered an inclusive learning environment that adapts to the unique needs of all learners.
